

Host a German Research Intern

RISE Worldwide – Summer 2027

RISE Worldwide gives research groups around the world the opportunity to host talented Bachelor students from German universities for research internships during the summer.

Students come from **Biology, Chemistry, Physics, Earth Sciences, Engineering, Computer Science, Medicine, or a closely related field**. They become part of your research team while gaining valuable international research experience.

Who can submit a project?

Research groups, laboratories and doctoral researchers at accredited universities and research institutions worldwide.

Why participate?

- Receive support for your research project
- Mentor highly motivated undergraduate students
- Strengthen the international profile of your research group
- Build collaborations with German universities
- Identify future Master's or PhD candidates

Internship duration

6 weeks to 3 months

Internship period

Summer 2027

Project submission

15 August – 30 September 2026 through

[Offer an internship | RISE](#)

Funding

Selected students receive a DAAD scholarship covering living expenses and travel costs.
